<ul style="list-style-type: none">— Reduced administration— Clear cost control— Planned maintenance and interventions		Biomed Engineer
<ul style="list-style-type: none">— Legal, standards and quality compliance— Maximised product up time— Potential for reduced whole life cost		Management

Bed and Mattress Perfor

The basic precondition for a medical bed or mattress to fulfil its function safely and effectively does not depend solely on manufactured quality, but also on its regular care and maintenance.

Service Contract –
100% Bed & Mattress
Protection

mance Assurance

- An annual contract can be customised to provide a broad scope of services
- A team of experienced, trained and authorised service engineers will be at your disposal.
- Guaranteed manufacturer original spare parts
- Broad range of contracts available
- Installed base condition audits

Example of a bed audit

Discover the present condition of all your beds

GREEN BEDS

are fully functional.

YELLOW BEDS

are functional, but require inspection and maintenance.

RED BEDS

require urgent servicing, there is a risk of injury to the patient or staff during use.

INSTALLED BASE AUDIT

- We will draw up a detailed summary of all beds including the serial numbers.
- We will provide information about the present condition of beds in terms of safety, function and mandatory safety and technical checks.
- We will divide your installed base into three main categories based on the audited condition (see above).
- We will recommend the most cost efficient option for optimising the condition of the bed stock.

Types of contracts

The life of the bed
will be extended by
at least **20%**

5 service contracts

Prevention is always better than cure!
With the support of our fully comprehensive 5 star contracts you can have peace of mind that all your maintenance and repair costs are covered.

4 service contracts

We provide an extensive spectrum of maintenance, repair and parts options under the four star banner.

3 service contracts

The planned preventative maintenance only option.

2 service contracts

Providing a quality and cost effective preventative maintenance service within the warranty period.

We will provide a customised service package

Josef Bystrianský

After-sales Service Manager

“The offer of our services fully covers the service and maintenance needs of beds and mattresses in hospitals and long-term care facilities. Everything for the safe stay of patients and comfortable nursing care. The added value is the significant saving of costs.”

Types of contracts

We offer regular maintenance and a quality service within the scope of various types of agreements. Choose from further options.

Reliable function of beds and saving of costs

Leslie Smith

Managing Director UK

“By entering into and concluding the contract we assume liability for the professional inspection and maintenance of the safe function of beds and mattresses. A great benefit is lower costs associated with compulsory inspections or quick intervention in post-warranty repairs.”

Choose from a range of options
